

# **Early Aid to Children and Their Families. Step by Step Towards Inclusive Society**

**St. Petersburg, May 20 – 29, 2020**

## ***Information Letter***

**Dear colleagues!**

**We invite You to participate in the Fourth international school-seminar on early aid to children and their families. The event is aimed at discussing the theoretical foundations of early intervention, getting acquainted with the experience of early care for children and their families in different countries and regions of the Russian Federation.**

School–seminar will be run in a format of lectures, presentations, round tables, online presentations, master classes and discussions. Specialists will present their experience of disseminating technologies of early aid in different regions of Russia and other countries; leading experts will share different aspects of modern approaches to providing early aid services to children and their families.

Specialists from Norway, European Union countries, Belarus, Ukraine, Kyrgyzstan and other countries will take part in the work of school-seminar.

### **Range of issues discussed:**

- interagency and interdisciplinary collaboration;
- organization of medical rehabilitation in the early stages of life of children (departments of reanimation and pathology of newborns)
- using results of basic research in physiology in early aid practice;
- creating “team around the child’ and how it works;
- accompanying children from the biological risk group;
- evaluating of effectiveness of early interdisciplinary aid;
- habilitation and rehabilitation of children with developmental disabilities;
- practical application of the "International classification of functioning, disability and health" (WHO);
- help and assistance to parents and other trusted persons;
- family-centered approach
- other aspects of early aid to children and they families.

School – seminar will be opened 20 May at Pediatric University in the frame of National Congress with International participation “Healthy Children are Future of the Country”.

### **Events will be head in the areas of organizers of The Fourth school-seminar:**

- ✓ Pavlov Institute of Physiology Russian Academy Sciences (St. Petersburg, Makarova

emb., 6);
